SUMMARY

Senior Technical Recruiter with 5 years of full-cycle experience hiring across the company, with a focus on EPD in a high-growth fintech consultancy. Built recruiting infrastructure from the ground up at Kunai — ATS implementation, sourcing stack, and hiring process strategy — while scaling the company from 30 to 500+. Equally at home optimizing an existing TA function or standing one up from scratch, including AI-driven interview workflows and Greenhouse integrations. Known for high candidate conversion rates, tight partnerships with engineering and product leadership, and a track record of delivering in ambiguous, fast-moving environments.
